Performance Premium Edition

4–6 ton excavator with powerful performance. It can be equipped with Kubota V2607-DI-T-E3 or Yanmar 4TNE98-BQFLC engine, with rated power ranging from 38.8 to 44.7 kW. The cab can be fitted with an air conditioning system; steel tracks are optional. The boom and bucket are made of reinforced steel. The fully upgraded hydraulic system delivers outstanding performance, making the machine suitable for complex working conditions and high-intensity operations.

Performance Upgrade Edition

3 – 4 ton excavator with upgraded power performance. Optional engines include Kubota V2203 / V240-M-E3 and Yanmar 4TNV94L-ZW, with rated power of 34.6 – 34.8 kW. It is equipped with a steel canopy and an upgraded hydraulic control system for more flexible operation and stronger overall performance. Ideal for working sites with demanding operating conditions and high performance requirements.

Standard Edition

1 – 2 ton excavator, optional engines include Kubota V2203 / V240 and Yanmar 3TNV70 / 3TNV80F, with rated power from 9.6 to 19.8 kW. It features simple and flexible operation, durable service life and high cost performance, suitable for general working conditions.

Built with ultra-tough and wear-resistant blades, this machine delivers exceptional cutting power. It offers gasoline and electric power options, with wheel-type and crawler-type chassis available to fit diverse job sites. Featuring compact size, high working efficiency and superior performance, all units come with full remote control operation for maximum flexibility and easy maneuverability.

Residential Terminal Generator Set

Model A, P Series

- Power Range: 2kW – 10kW
- Use Case: Home Backup (lighting, washing machines, fridges, induction cookers, microwaves, ovens, AC units, TVs, audio, etc.)

For Drones

- 29000mAh Battery
- Charge Time: ~10 – 12 Mins
- Stable Voltage, Protects Charger & Battery
- Fuel Tank +60%, Longer Runtime

Model B, P Series

- Long Runtime, Stable Operation Up to 500 Hours
- Panel Control, Remote Control, Timed Power On/Off
- Compatible with Standard Household Appliances

GENERATORS K SERIES

- Fuel gauge cap
- Suitcase-style handle
- Large fuel tank
- Practical & user-friendly design

Inverter Silent Model

- Compact, lightweight design, easy to carry and transport outdoors.
- THD \leq 3%, stable voltage to protect electronics.
- Low-noise operation for a quiet, comfortable environment.

24V DC GENERATORS

- Compact, 18.8kg, 59dB Low Noise
- ITHD $<$ 1%, Stable Power for Precision Electronics
- 10h Runtime, Fuel-Efficient
- Smart System, Easy Start/Stop

Commercial-Grade Generator Set

P Series Pro Generator

- Suitable for field applications such as communication base stations.
- Featured with high durability, continuous operation up to 500 hours.
- High-strength steel frame ensures safe handling and transportation.
- Low fuel consumption, energy saving rate over 20%.

P Series Remote-Control Genset

- Intelligent design with remote operation, real-time monitoring, cloud transmission and precise positioning.
- It supports maintenance reminders and full cloud control.
- All functions can be operated via mobile phone remotely for higher convenience.

48V DC GENERATORS

- Parallel operation for higher power and better cost performance.
- 50% more compact than ordinary portable models, saving shipping cost and storage space.
- Intelligent circuit protection and fuel-saving design for safe, fuel-efficient and durable operation.

Farm & Garden Equipment

We supply a full range of products in various models: Gas Engines, Diesel Engines, Well Pumps, Centrifugal Pumps and High Pressure Washers.

We supply a full range of equipment in various models: High-pressure sprayers, garden tillers, cultivators, and spare parts.

We offer a full range of equipment in various models: backpack brush cutter, earth auger, hedge trimmer, handheld gasoline chainsaw, etc.

- Full series for indoor and outdoor use.
- Adopts high-strength fiberglass board and heavy-duty steel rim, featuring excellent toughness and structural strength.
- Equipped with electric hydraulic height adjustment.

- High-strength and high-toughness basketball rim; high-strength fiberglass backboard.
- Easy to install and firmly fixed in place.
- Full range of models including professional version and junior basic version.

- Easy transportation and free assembly & splicing.
- Rust and corrosion resistant, long service life.
- Customization is available to meet personalized requirements.
